Is this me?

**For now we see only a reflection as in a mirror;
then we shall see face to face. Now I know in
part; then I shall know fully, even as I am fully
known.**

1 Cor. 13.12

This other, vastly grander universe isn't far away physically, but simply exists on a different frequency. It's right here, right now, but we're unaware of it because we are for the most part closed to those frequencies on which it manifests. Like understands like. The universe is so constructed that to truly understand any part of its many dimensions and levels, you have to become a part of that dimension – you have to open yourself to an identity with that part of the universe that you already possess, but which you may not have been conscious of.

Eben Alexander – *Proof of Heaven*

Max Planck – known as the father of quantum mechanics said 'I regard matter as derivative from consciousness.' If he's right, it makes sense that when our bodies (matter) are gone, we will become pure consciousness again.

Judith Orloff – Power of Surrender

Heaven is a place of pure thought, a continuous feeling of a powerful mental force directing everything in uncanny harmony. Souls contact one another just by thinking of them. Here no one is a stranger and there is total lack of hostility toward anyone. We recognize a universal bond between us which makes us all the same.

Michael Newton – Journey of Souls

We are the only judge of our performance – there is no hell or punishment. We place our souls on a path of understanding and forgiveness to learn from mistakes and move closer to the Infinite Light.

George Anderson – Lessons from the Light

I saw my life intricately woven into everything I'd known so far. My experience was like a single thread woven through an infinite tapestry. I knew I owed it to myself and all life to always be an expression of my own unique essence.

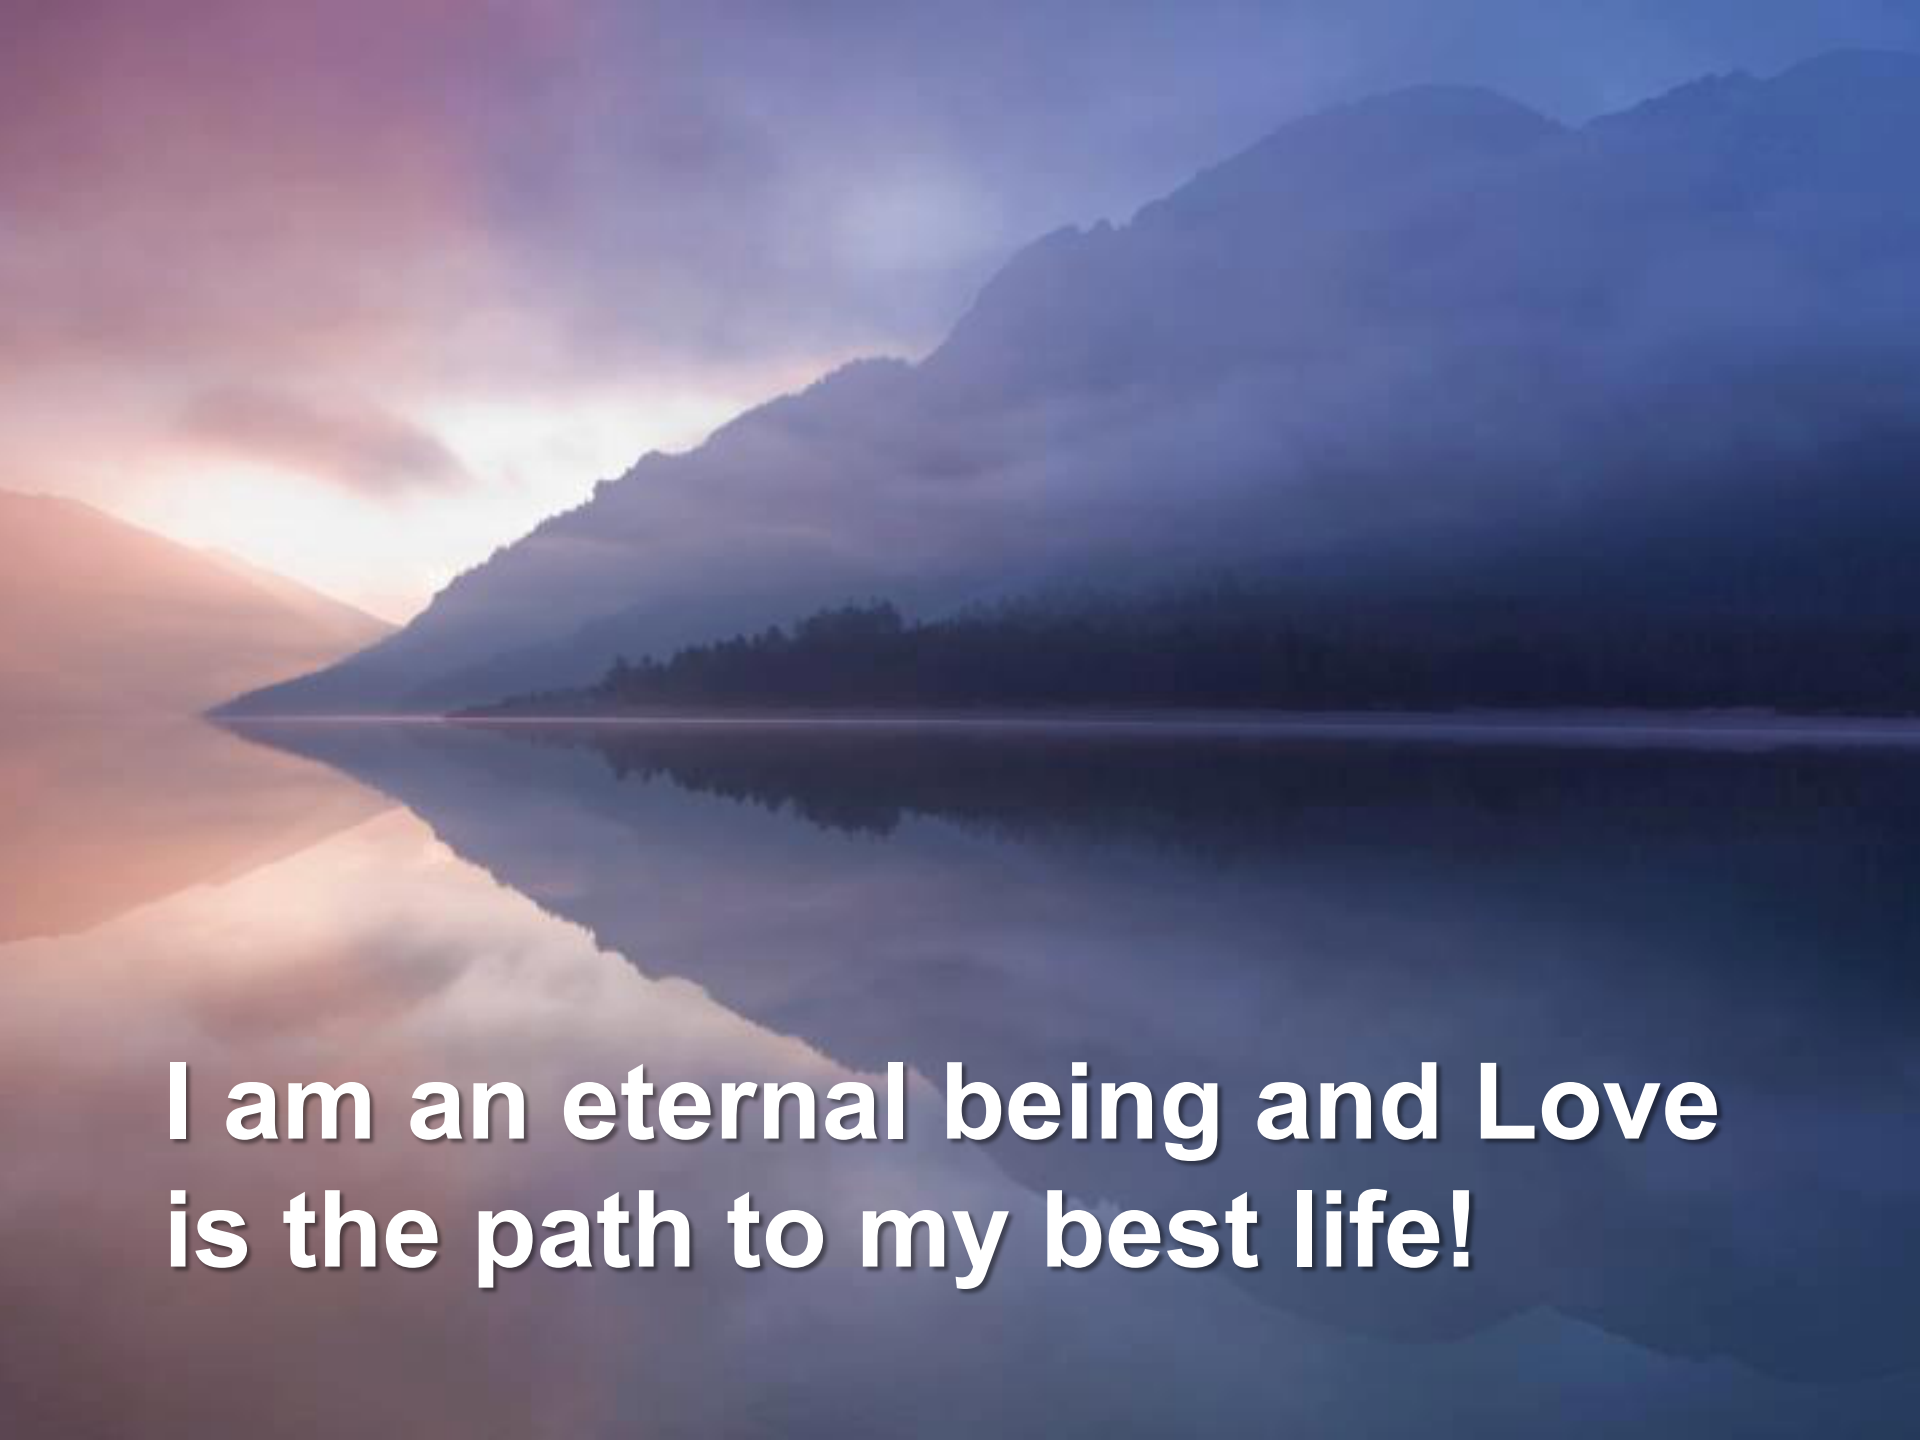

Anita Moorjani – Dying to Be Me

The key to growth is understanding we are given the ability to make mid-course corrections in our life and having the courage to make necessary changes when what we are doing is not working for us. By conquering fear and taking risks, our karmic pattern adjusts to the effects of the new choices.

Michael Newton – *Journey of Souls*

I knew that the only purpose of life is to be our self, live our truth, and be the love that we are.

Anita Moorjani – Dying to Be Me

**I am an eternal being and Love
is the path to my best life!**
