

# Hearing Divine Thoughts

Your spiritual nature, the Superconsciousness within you is the door to all the good that the Universe has for you. When you realize your true identity, the door swings open and the fullness of power comes forth. It goes before you to straighten out every crooked place, it perfects everything that concerns you, and you begin to live the kind of life you were created for.

*The Superbeings* – John Randolph Price

Every tactic the persona uses is fear. There isn't anything else. That sums up all of the thoughts in the world – either you know you're I AM or you're afraid.

*One Truth, One Law: I AM, I Create* – Erin Werley

Ps. 37.9 – “Those who wait on the Lord shall inherit the earth.” To wait on the Lord means to integrate yourself with the power and potential of your spiritual nature, to get yourself plugged in, tuned in, and turned on. Get your mind to stay on God, to become a channel for the creative flow.
