Until you understand that all arises from and as Love, your challenges will appear to be tests. When you understand that nothing can be separated from anything else, you will understand each opportunity as a test of your understanding and rejoice, “Oh my! I may use this to practice being Who I really Am!” Set your test anxiety aside and simply do and be what comes more naturally than breathing...LOVE.

John 16.33

Suffering

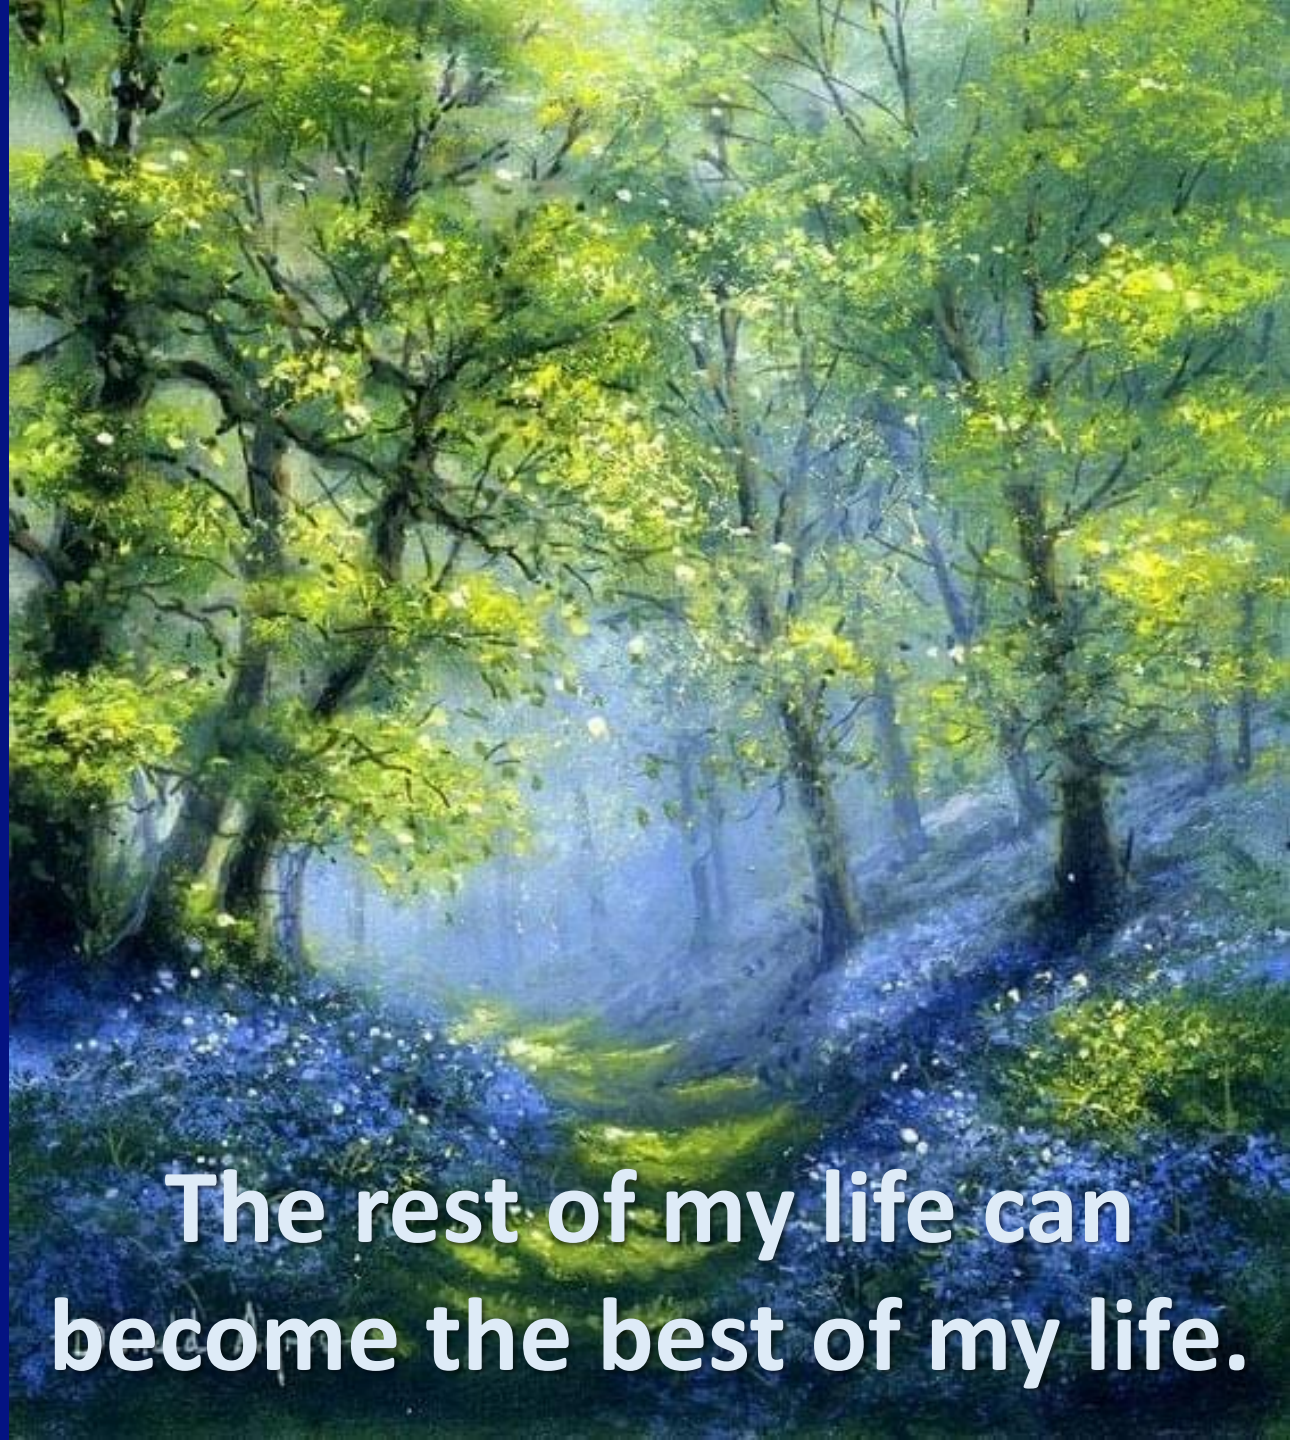

Life Before
Death

The key to growth is understanding we are given the ability to make mid-course corrections in our life and having the courage to make necessary changes when what we are doing is not working for us. By conquering fear and taking risks, our soul identity is strengthened. Even as victims, we are beneficiaries because it's how we stand up to failure and duress which really marks our progress in life.

Michael Newton – *Journey of Souls*

When you identify with ego, with separateness and scarcity, you see yourself as alone and vulnerable in an unfriendly world. Transcend your ego, and you awaken to discover that behind every 'perceived separation' from Spirit is a doorway to the Divine. Switch your allegiance from your ego to your spirit, and pressure and struggling give way to peace and serenity.
