

**“You are the controller of your consciousness.... Consciousness contains total intelligence because consciousness is the action of the Infinite Mind thinking. Your consciousness is the individualization of the total consciousness of Being. That is why it will demonstrate for you a richer life when you are certain you want it and have decided to have it.”**

**“It all depends on you, not on the world of events, things and people. Your mind is where you live. Your mind, not someone else’s mind, *your* mind. An expanded consciousness expresses in an expanded experience. This is the way the law of mind works, and it works no other way.”**

**Raymond Charles Barker**

**“It follows that if we believe that It will not work, It really works by appearing to “not work.” When we believe that It cannot and will not, then, according to the principle, IT DOES NOT. But when It does not, IT still does – only IT does according to our belief that It will not.**

**This is our own punishment through the law of cause and effect; we do not enter in because of our doubts and fears.”**

**Ernest Holmes**

**“The way to meet a problem is to raise your consciousness. In the Bible, the valleys always stand for trouble, sin, limitation; the mount for uplifted thought, and prayer for understanding. We must go up into the mount; we must raise our consciousness.”**

**Emmet Fox**

**“Stay with the One and never deviate from It, never leave It for a moment. Nothing else can equal this attitude. TO DESERT THE TRUTH IN THE HOUR OF NEED IS TO PROVE THAT WE DO NOT KNOW THE TRUTH.**

**When things look the worst, that is the supreme moment to demonstrate, to ourselves, that there are no obstructions to the operation of Truth. When things look the worst is the best time to work, the most satisfying time. The person who can throw himself with a complete abandon into that Limitless Sea of Receptivity, having cut loose from all apparent moorings, is the one who will always receive the greatest reward.”**

**Ernest Holmes**

**“Man is buffeted by circumstances so long as he believes himself to be a creature of outside conditions, but when he realized that he is a creative power and that he may command the hidden soil and seeds of his being out of which circumstances grow, he then become the rightful master of himself.....”**

**AS A MAN THINKETH by James Allen**

**I AM THE CONSCIOUSNESS OF LIFE –  
CONSCIOUSLY AWARE OF ITSELF!**
