

“Travel is fatal to prejudice, bigotry, and narrow-mindedness, and many of our people need it sorely on these accounts...”

Mark Twain

## **The Universe appears fundamentally inseparable**

“The universe appears to be a thoroughly, interconnected whole. Inseparability implies that we are an integral part of everything and everyone. This understanding showers us with meaning, purpose and connectedness.”

Mel Schwartz, *The Possibility Principle*

“....Broad, wholesome, charitable views of men and things cannot be acquired by vegetating in one little corner of the earth all one's lifetime.”

Mark Twain

## Embrace Uncertainty

“Uncertainty is the fabric of the quantum world. This principle has vast applications in our lives, and we should view it as good news. Welcoming uncertainty frees us from the severely constrained existence in which the mechanistic template (traditional Newtonian physics) imprisons us. Think of uncertainty as the wind in our sails, empowering us toward the lives we seek. Uncertainty is where new possibility lies.”

Mel Schwartz, *The Possibility Principle*
