

Power of a Beginner's Mind

**God is all there is, everywhere present,
the infinite creative energy of love**

**Human beings are individual,
eternal expressions of God
and are inherently divine**

**We create our life experiences
through our thoughts,
feelings and beliefs**

**Affirmative prayer and meditation
are the primary spiritual tools
we use**

**Knowing these principles is not
enough. It is a choice to live
from the truth we know**

**To Know and not to do is yet
not to know
Confucious**

**Today is going to be my
peaceful day
