What is a Miracle?

An event or effect in the physical world beyond or out of the ordinary course of things, deviating from known laws of nature, or transcending our knowledge of these laws.

Webster Dictionary

In reality, miracles are events that take place as a result of the operation of a higher, unknown law.

Charles Fillmore

“Again I tell you, it is easier for a camel to go through the eye of a needle than for someone who is rich to enter the kingdom of God.” When the disciples heard this, they were greatly astounded and said, “Then who can be saved?” But Jesus looked at them and said, “For mortals it is impossible, but for God all things are possible.”

Matt. 19:24-26

**There really is only one problem for any of us.
That is when we allow ourselves
to be separate from God.
But in a very real sense,
we can never be separate from God,
since there is no place that God is not.
Thus, the paradox. When we are connected to
God, we have no problems.
We are always connected to God.
Yet we still believe that we have problems.**

Wayne Dyer
