

Connect the Dots to a ... *Miracle*

Light has a dual nature of both a particle and a wave. How we ask the questions affects the answers we arrive at. Light appears as a wave if you ask it a wave-like question and appears as a particle if you ask it a particle-like question.

John Polkinghorne

Water crystal
responding to
the thoughts of
love and gratitude.

Water crystal responding to the thoughts love & gratitude.

Water crystal
responding to
the thoughts of
I hate you and
You make me sick.

Water crystal responding to the thoughts I hate you & you make me sick.

The problems of
the world will not
be solved on the
level of thinking we
were at when we
created them.

Nothing happens
until something
moves.

Albert Einstein

Jesus demanded faith on the part of those whom he healed, and with that faith as the point of spiritual and mental contact, he released the latent energy in the atomic structure of his patients and they were restored to life and health. Have faith in the power of your mind to penetrate and release the energy that is pent up in the atoms of your body and you will be astounded at the response.

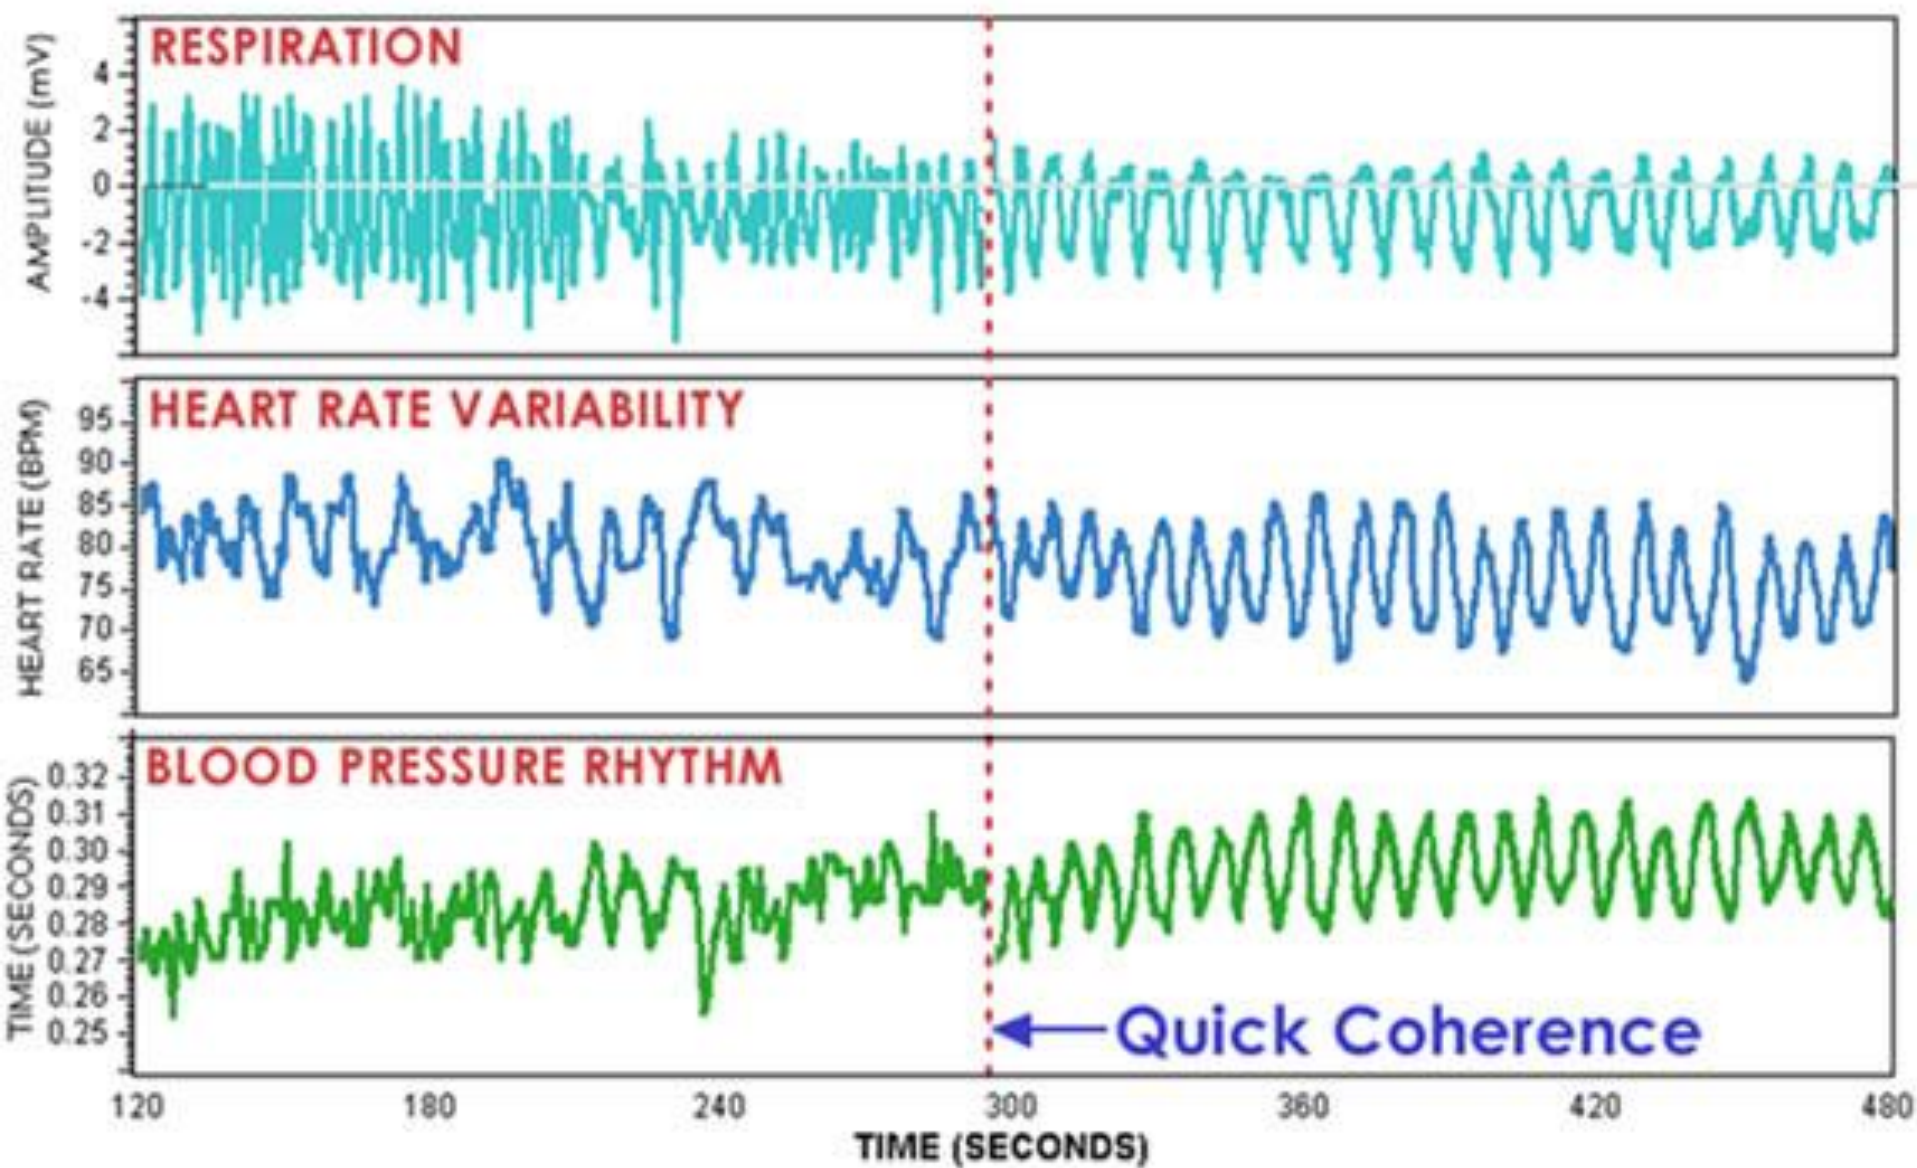

Charles Fillmore

It's good to get still
and think about the
inexhaustible resources
of infinite Mind; about its
presence in all its
fullness & its readiness
to manifest itself when
its laws are complied
with. When you sift your
consciousness of all but
the real and true, the
body becomes full of
light.

Charles Fillmore

The Coherent State

Human energy is low and the divine energy is without limit. You are God. You are the divine energy when you do the divine work. Your energy grows.

Sathya Sai Baba

You are the light of the world. Don't hide it under a basket. Let it shine.

Jesus

**My natural energy
is ALIVE with
Life, Light and
Love.**
